DÜSSELDORF

SINCE 1968

Meet your **Life Skills Teacher**...

I am a Canadian teacher, but I have been teaching internationally for almost 20 years. I have spent the last 15 years at ISD because I love this school.

I have a background in Elementary Education and I studied History in university. So, I really enjoy teaching Humanities to the students in grades 6-9. I also teach Life Skills since it gives me a chance to teach a different subject – one that really enables me to get to know my students in a very meaningful way.

I look forward to working with students this year and I hope that each student in my class finds new and creative and healthy ways to manage challenges in life.
