SCHOOL OF  
DÜSSELDORF

SINCE 1968

## Meet your **Life Skills Teacher**...

---

I am joining the International School of Dusseldorf all the way from Australia. I graduated from Monash University with a Bachelor's Degree, where I majored in Psychology and Humanities Education. Since then, I have taught across many subjects including Psychology, History, Physical Education and Outdoor Education.

I have a passion to see students develop a love for learning and see the practical application of how this learning can be used every day. Life Skills is such a student-focused course that I am really excited to teach.

Outside of the classroom, I have run my own tennis coaching business and love to play tennis in my own time. I enjoy travel, snowboarding and spending time with my two young daughters, Sienna and Alessia.
